

The American Apocalypse

Let all that we do and say be done in the name of Yeshua, the Messiah, our Savior and may we be pleasing in His sight.

It is the 29th day of Nisan (Abib) and day 14 of the Omer count. Jerusalem time is about 11 hours ahead of us and we received the message this morning that the new moon was seen Saturday night in Jerusalem. So the new moon day is tomorrow, Sunday, and begins the first day of the month of Iyar. The moon orbits the earth every 29 or 30 days so the crescent new moon has to be every 29 or 30 days. Beware of apostasy and apostate ministers.

Michael Rude wrongly claims that Yeshua was crucified on a Wednesday and he is counting the Omer from the wrong day and his timing is a week off. The world is endorsing the Temple Mount in Jerusalem as belonging to the Muslims and Arabs only, not the Jews, despite the historical fact that the Temple Mount is the holiest site in Judaism. The western wall is the last remnant of the Temple and one of four walls Herod the Great built to support the 1,555,000-square-foot plaza on which the Temple stood. UNESCO's Executive Board in Paris on Friday adopted a resolution whose language ignores Jewish ties to its holy religious site of the Temple Mount and the Western Wall area in Jerusalem's Old City.

Five million Muslims reside in France with as much as half of them under 24 years of age. Since 1967 and the Six Day War, France has become increasingly pro-Arab, opposed Israel on crucial matters and sought ways to improve its relations with the Arab states due to Arab oil reserves. November 2015 a series of deadly coordinated terrorist attacks occurred in Paris with a terrible massacre. All of the known Paris attackers were EU citizens who had fought in Syria. Native French are under attack in Muslim areas and fear imposition of Islamic law and the organized violence against any French person, including the police. What lies ahead? Wars are not won by capitulating and giving up or giving in to the enemy. First rule is to recognize who is the enemy.

Watching the *signs of the times*, observe that America and Great Britain are going astray from God. London, England has elected its first Muslim mayor, Sadiq Khan, to lead Europe's largest city. America's President Obama is very pro-Muslim, anti-colonial, anti-American and increasingly anti-Israel. Meanwhile, Great Britain is considering pulling out of the EU which involve treaties designed to "remove barriers to the free movement of goods, persons, services and capital between the EU member states", because membership in the union threatens its autonomy and prosperity with no control over its "unsustainable" immigration policies and Britain's sovereignty is at stake. Barack Obama fearful that a British exit could weaken the West visited London and lunched with Queen Elizabeth on her 90th birthday. He also wrote an impassioned appeal for Britain to remain in the EU.

He wrote: “I will say with the candor of a friend, that the outcome of your decision is a matter of deep interest to the United States.”

The New York Times, London (4.21.16)). A landmark Roman arch that was destroyed by Islamic State fighters in Palmyra, Syria was displayed in Trafalgar Square on Tuesday, 4/19/19 in London, England. Researchers at *The Institute of Digital Archaeology (IDA)* built a 3-D computer model of the Palmyra arch by compiling dozens of photographs taken by archaeologists and tourists in Palmyra before the Islamic State moved in. Robots in Italy then used the computer model to carve the marble replica. Christians and Jews were concerned about the arche’s association with Baal to be displayed in Trafalgar Square in London.

The Temple of Baal is *not* coming to Times Square in New York City. Confirmation came in the form of an article from the *Telegraph*, which is one of the most important news sources in the United Kingdom. On Friday, they reported that the original plan to put up the arch from the Temple of Baal in New York and London simultaneously had been scrapped. Since then there has been some backtracking on the original idea. **There will be no simultaneous unveiling in New York** – they may transport the London arch there later, or build another one – and **the Palmyra arch that is being reconstructed is no longer called the entrance to the Temple of Bel (which survived an attempt to blow it up in August 2015) but the Arch of Triumph** (partially destroyed in October) formerly located at one end of the Great Colonnade. (Zonica.com)

Our country is currently nineteen trillion dollars in debt. Is Obama going for broke? “Obama administration’s budget has asked for \$2.1 billion set aside for illegal immigrants — which includes over a billion in benefits for an expected 75,000 Central American teenagers and children the administration estimates will illegally enter the country in 2016. This is according to analysis by the Center for Immigration Studies, which calculates that the budget request would amount to \$17,613 in taxpayer money for every illegal child — more than double what the government spent in 2010. That’s nearly \$3,000 more than is budgeted for the average retiree in annual Social Security benefits — a benefits system these taxpayers contributed to for their entire working lives. The cost is based on a trend, CIS conclude. The administration has also asked for U.S. taxpayers to foot \$750 million in assistance to the Central American countries these unaccompanied alien children (UAC) are leaving. (5/13/16- Alipac.us *Obama handing out \$18,000 to illegals.*).

Looking for a Job--Another article states that one out of five American families today, nobody in the family has a job—they have given up looking for a job. If nobody is working in one out of five American families, that brings up a question: “How can the employment rate be only five percent for the nation like the government says, if 20% of our families (1 out of every 5) nobody works (completely unemployed)? The Federal Reserve has found that 27% of all Americans today would not even be able to come up with \$400 cash for an unexpected visit to the emergency room at the hospital. They would have to borrow the money or sell something.

Wednesday, John Kaich withdrew from the Republican presidential race, just a day after Ted Cruz dropped out. leaving alone Donald Trump who is now the Republican party’s presumptive

nominee for the November 8 general elections in the US. The American people are angry at Obama's government—out of work, in debt, and are responding by the thousands to Trump's positive action messages on the big issues facing our country. Herein, political chaos and anarchy lies ahead in our future. Worldwide, the underlying economic fundamentals of country after country are beginning to deteriorate. Corporate profits are plunging and a future major economic downturn is forecast.

All these happenings can be summarized by a small three-letter word—sin. The definition of sin is summarized in **1 John 4:3 (NKJV)** — “Whoever commits sin also commits lawlessness, and sin is lawlessness.” Sin is breaking God's law—the ten commandments, statutes and judgments of Almighty God. Apostle Paul says in **Romans 6:23 (NKJV)** -- “For the wages of sin is death, but the gift of God is eternal life in Christ Jesus our Lord.” **Ezekiel 18:4, 20** — “all souls are mine; as **the soul** of **the** father, so also the soul of the son is mine: the soul that sins, it shall die. The son shall not bear the iniquity of the father, neither shall the father bear the iniquity of the son: the righteousness of the righteous shall be upon him, and the wickedness of the wicked shall be upon him.”

Associated Press (5-4-16). York's iconic Stonewall Inn, where the modern gay rights movement took root, will become the first national monument honoring the history of gays and lesbians in the U.S. under a proposal President Obama is preparing to approve to recognizing the struggle for gay rights. Next month marks Lesbian, Gay, Bisexual and Transgender Pride Month in the U.S. *Christiandaily* (5.9.1) “Evangelist Franklin Graham opposes a national gay monument in NYC and has called the planned gay monument a “monument to sin”.

The Bible says in **Leviticus 18:22-30--(KJV)** “Thou shalt not lie with mankind, as with womankind: it is abomination. Defile not ye yourselves in any of these things: for in all these the nations are defiled which I cast out before you: For whosoever shall commit any of these abominations, even the souls that commit them shall be cut off from among their people.” **Proverbs 13:34** — “Righteousness exalts a nation, but sin is a reproach to any people.” **Psalms 119** tells us the attitude we all need to have: “**O how I love thy law. It is my meditation all the day.**” I have restrained my feet from every evil way, that I may keep Your word. I have not departed from Your judgments, for you yourself have taught me. How sweet are Your words to my taste, *sweeter* than honey to my mouth! Through your precepts I get understanding; therefore, I hate every false way” (verses 97; 100-104). People throughout the whole world are demoralized, and blind.

Congress approved an exemption to certain requirements for faith-based educational institutions well before Obama “started strong-arming the education system to adopt his radical views of ‘sexual orientation’ and ‘gender identity.’ The U.S. Department of Education published Friday a list of faith-based colleges and universities that requested and were granted a religious exemption from Title IX. LGBT activist groups have been calling on the government to publish the list as part of a shaming campaign called the ‘Shame List’ to pressure Christian colleges to consent to their agenda. The Department of Education, under the leadership of Barack Obama, whose pro-homosexual agenda has been unparalleled, has launched a website which critics say is dedicated

to the “shaming” of Christian colleges that follow biblical principles rather than a leftist social agenda” which adopts Obama’s own radical views on sexual education and gender identity.

Sixty-four thousand negative ads costing fifty-five million dollars on anti-Trump TV ads has already been spent so far by opposing political groups. Opposing Presidential candidate, Jeb Bush, spent fourteen million dollars on negative Trump ads, but later withdrew from the race for US president. American documentary film maker and author Roger Moore, directed and produced *Fahrenheit 9/11* (2004), a critical look at the presidency of George H. W. Bush and the War on Terror and the Iraq war. The book talks about Bush’s beginning with the CIA and his involvement with the assassination of President J.F. Kennedy. According to Pierce Morgan, well known British journalist and television personality, Donald Trump is playing Washington, D.C. elite of America and has electrified U.S. politics like nobody has ever seen on the American political scene. Trump talks about key issues which the government is ignoring such as stopping illegal immigration in America, protecting America’s borders, building a wall between Mexico and America with Mexico paying for it, and bringing jobs back to America. Morgan says, Trump’s messages are short, simple, explosive and eye-catching dealing with real issues. The “establishment” is petrified and trying every possible way to stop popular front runner Trump from becoming the Republican presidential nominee. Raising up a third party is being suggested. Others, voice fear of incidents happening and martial law being declared by President Obama using has executive order privilege.

Scientists say there has been an above average number of significant earthquakes across south Asia and the Pacific since the start of the year (2016). The increased frequency has sparked fears of a repeat of the Nepal quake of 2015, when 8,000 people died. Michael Snyder; *endoftheamericandream.com* According to Volcano Discovery, 38 volcanoes around the globe are erupting right now. This is definitely an unusually high number. Seismologist Roger Bilham of Colorado University warns “current conditions might trigger at least four earthquakes greater than 8.0 in magnitude”. If he is right and we do begin to see a series of absolutely massive earthquakes, that could dramatically change the course of world events literally overnight.

Is the strongest and most powerful nation on the planet headed for an apocalypse which will bring it to its knees? We live in a world that is becoming increasingly unstable, and apocalyptic themes have become very common in books, movies, television shows and video games. Last week, the Global Challenges Foundation released a new report entitled “Global Catastrophic Risks 2016” in which they discussed various apocalyptic events that they believe could wipe out more than 10 percent of the population of our planet, and they warned that these types of events “are more likely than we intuitively think.”

Super volcanoes. In various locations around the globe, there are gigantic super volcanoes which could dramatically change the course of human history in a single moment by erupting. In the United States, the Yellowstone Super volcano is becoming increasingly active, and a full-blown eruption could potentially be up to 2,000 times more powerful than the eruption of Mount St. Helens back in 1980. As I mentioned the other day, major metropolitan areas such as Salt Lake City and Denver would be essentially destroyed, food production in this country would be virtually wiped out, and a “volcanic winter” would cool global temperatures by up to 20 degrees

for up to several years. **Asteroids and Comets.** NASA has established a “Planetary Defense Coordination Office” that is in charge of tracking giant space rocks, and NASA is working to develop a method to destroy incoming asteroids using nuclear weapons. Scientists admit that they only know about a small fraction of the near-Earth objects that are actually out there, and we get hit “by surprise” all the time.

Natural Pandemics. The flu pandemic of 1918 killed approximately 50,000,000 people worldwide, and scientists assure us that it will happen again one day. As we learned during the recent Ebola outbreak, a really nasty virus can grip the entire world with fear in a very short period of time. **Engineered Pandemics.** This is probably even a bigger threat than natural pandemics, because now we have the technology to genetically alter naturally occurring diseases and make them even stronger. **Artificial Intelligence. Geoengineering.** The human race now has the capability to purposely modify the weather, and this means that we also have the capability to do a tremendous amount of damage. **Nuclear War.** The U.S. strategic nuclear arsenal has been reduced by about 95 percent, and Barack Obama insists that he would like to reduce it even further. Meanwhile, both the Russians and the Chinese are rapidly modernizing their nuclear forces, and they both have developed hypersonic glide vehicles that can defeat any missile defense system that the U.S. can put up. **Islamic Terror** is happening worldwide including the Far East. Terror attacks using weapons of mass destruction—biological, chemical, or nuclear—could literally turn our society completely upside down virtually overnight? Pakistan and Saudi Arabia have nuclear weapons.

Power Grid Failure. A massive electromagnetic pulse, either from the sun or as the result of a nuclear blast, could instantly plunge society back into the 1800s. Imagine a world without any lights, cell phones, computers, televisions, ATMs, heating and cooling systems, credit card readers, gas pumps, cash registers, refrigerators or hospital equipment. The EMP Commission spent years studying this, and they told Congress back in 2008 that up to 90 percent of the U.S. population could be dead within one year of such an event due to starvation, disease and the breakdown of society. **Cyberwar.** The Internet is one area where we are particularly vulnerable. The Chinese, the Russians and the North Koreans have all been working very hard to develop their cyberwarfare capabilities. Insiders of the U.S. intelligence says our power grid could be taken down with just the push of a button.

Economic Collapse. If you want to see how devastating an economic collapse can be on a nation, just pick up a history book and start reading about the Great Depression of the 1930s. What we are heading for is going to be a whole lot worse than that. **Civil Unrest & Martial Law.** Anger and frustration have been building up to unprecedented levels in this country, and at some point there is going to be a huge explosion. **Catastrophic Earthquakes.** A historic earthquake along the New Madrid fault seismic zone, the Cascadia Subduction zone or any of the major faults in California could affect millions of lives, cause hundreds of billions of dollars in damage, and literally change the geography of our continent. Things are not getting better. Perhaps God will grant us a little more time to get His work done. It is in his hands. I believe that the time of the end has begun and we are in about the last seven years. Messiah is coming soon.

Matthew 24: 7-8 – “For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes, in diverse places. All these are the beginning of sorrows.”

Talmud, Vol 21, Steinstaltdt edition, Sanhedrin 96-B — “The prophecies of the Coming Messiah (prophecy being fulfilled at the coming of Messiah)”. It talks about the final seven years. The question asked by the rabbi: “Who is the son of the giants?” *Answer*: Messiah. “Have you heard when Messiah is going to come?” As **Amos 9:11** states, “In that day will I raise up the tabernacle of David that is fallen...” Rabbi Johannian said, “When the son of David, the Messiah comes, Torah scholars will diminish in number. As for the rest of the people their eyes fail with pain and grief and their troubles will increase; hard decrees will be constantly renewed (as is happening in America today as imposed by a despotic president). “As soon as the first evil decree is past, so will come speedily the second evil decree in its place.” In the Sabbatical cycle” (a Sabbatical cycle is a Shemitah cycle of 7 years ending in a year of rest), *when the Son of David will come the following will occur.*” (This quote is at least 1500 years old.)

Note: We just ended a Shemitah cycle (2014 – 1015) during which we had two blood red moons both years at the beginning of the Hebrew year/Passover 2014 and Sukkoth 2014. Then in 2015, there was a blood red moon Passover and another blood red moon Sukkoth. The current Shemitah cycle began September 2016 and ends in 2022. Talmud (continues) **Amos 4:7** will be fulfilled.

The Sabbatical Cycle. (possible projection: 2016 – 2023)

1ST YEAR — “And I caused it to rain upon one city, and caused it not to rain upon another city: one piece was rained upon, and the piece whereupon it rained not withered.”

2ND YEAR — “Arrows of the famine will be shot everywhere (scattered famine); nowhere will there be plenty.”

3RD YEAR — “There will be a great famine throughout the world.” Men and women of good deeds will die (persecution/tribulation) and as a result, Torah will be forgotten.

4TH YEAR — “The situation will begin to improve. There will be plenty in some places and still lacking in some places.”

5TH YEAR — “There will be plenty in all places, people will eat, drink and be happy and the Torah will be restored to its students.

6TH YEAR — “There will be rumors that Messiah is on His way. During the 6th year, when Messiah comes, there will be great heavenly noises similar to thunder that is not connected with clouds or rain. (Great signs in the heavens. Compare with Revelation 6).

7TH YEAR -- “Great wars will be fought between Israel and the nations, War of Gog and Magog. (Armageddon/Apocalypse war—Revelation 17). The year following the Shemitah year (ends Sept.-Oct) the Son of David will come.” (**Passover or Tabernacles**). **Ezekiel 38 – 39; Revelation 15-16; Revelation 19; Zechariah 14. Jeremiah 30:5**--Messiah will save his people out of Jacob’s trouble.

Blessed is He who comes in the name of the Lord (**Psalm 118:26; Dan. 12:12; John 12:13**).
